**Installation**

Tools Required

- [ ] Torx Screwdriver
- [ ] Phillips Screwdriver
- [ ] Opening Tool
- [ ] Radio Install Kit

---

**Safety Notice**

Video/movie playback will not operate while the vehicle is moving. This is a safety feature to prevent driver distraction. In-dash video/movie functions will only operate when vehicle is in Park and the parking brake is engaged. It is illegal in most jurisdictions for the driver to view video while the vehicle is in motion.

---

**How to Install**

1. Unpack package and remove any packing material.
2. Carefully unpack the electronics components from the electronics EPS Pak.
3. Depending on the model purchased, the main unit will either be a “plug and play” system directly connected to your existing headunit or you may have to install the headunit directly to your existing headunit.
4. Follow the instructions provided by your electronics components manufacturer to connect the headunit to your existing headunit.
5. Once the headunit is installed, plug the power connector into the electrical power source and the headunit will begin to operate.
6. If you experience any problems during the installation process, please contact your electronics components manufacturer for assistance.
